

Arduino Weather Unit, Part 1 (Aspects of Weather)

Engage

Check the local weather with this link here. What are some key parts of the weather report that you pay attention to?

Look at the 10-day forecast here? How accurate do you think this information is?

Explore

Make a copy of the KWL Template, then start reviewing the Weather Playlist, as well as the Presentation Notes (Part 1, Part 2, and Part 3)

Develop your own personal notes in your Notespace.

Explain

Answer the summary questions and include a link to this HyperDoc.

Elaborate

In your Notespace, develop a chart that connects the various Weather elements (Temperature, Moisture, Air Pressure, Clouds) together. Attach a link to this HyperDoc.

Evaluate

Let Mr. Buison know when you are ready for the Weather Assessment. You must have 80% or better to move on to the next part of the Module. If you don't pass it, complete the "Reflect and Retake (R2)" Protocol to try the Assessment again.
